

INTENSIVE HUNT FOR F.B. MEMBERS

Every Farmer in County is
Wanted in the Organi-
zation.

The series of meetings that are being held throughout the county this week to tell the people what the Farm Bureau is and what it offers to agricultural improvement in the county everywhere will come to a close Saturday night. Six meetings were held last night and seven more meetings will be held tonight. Friday the meetings are scheduled for Ballah, Worthing School, Winfield, Lake School, Metz School and Grangeville.

The efforts made at these meetings to get every farmer and farm woman to join the Farm Bureau has been followed by the arrangement of solicitors in each section to personally canvass every farm family in the neighborhood. However, it is felt by those interested in the improvement of Farm Bureau work in this county that even this house-to-house solicitation will not be able to reach every one in the county. So a copy of the membership card is being printed on the front page of this issue of The West Virginian. Any farmer or farm woman who has not been visited by any of the Farm Bureau workers is urged to fill out this slip and send it to the Farm Bureau office accompanied by check for \$4.50 as payment of membership dues to December 31, 1921. The receipt will be sent out by the Farm Bureau at once.

Among the many subjects that County Agent W. E. McComas is helping the Farm Bureau members are soil improvement, orchards, trucking, beef cattle, dairy cattle, hogs, sheep, poultry, small fruits and home canning. Each member is asked to indicate on a card on file in the County Agent's office the subjects that he is most interested in and he is placed on the regular mailing list for everything available on these subjects. These are separate from the usual service that the county agent gives to every farm man or woman who asks for aid along any other line that may help country living or help improve farming.

East Side Mothers To Talk on Schools

Matters pertaining to the schools of the East side will no doubt be responsible for a largely attended session of the Mothers' club of the East side at the Community house on Friday afternoon at 2:30 o'clock. The meeting will be addressed by Mrs. C. E. Hutchinson. A general discussion on the subject will follow.

RIVESVILLE LAD DROWNS IN RIVER

Fell From Big Concrete
Wall at Power Plant
Into River.

Little six year old Grazza Mazza, son of Mr. and Mrs. Mike Mazza, Hungarians, at Rivesville, fell into the river from the concrete wall near the power plant yesterday at 4:15 o'clock and was almost instantly drowned as his body was not recovered for an hour and forty minutes afterwards. Jim Carpenter and Harry Myers who chanced to be near the scene of the tragedy at once went into the river and it was through their earnest efforts that the little lad was recovered and the dead body

Nobody Ever Rested By Being Idle

Very many people are idle and unfit to work because they suffer from piles, and the trouble is so painful they cannot rest. Piles "pull a man down" in almost no time. No other thing is more discouraging and depressing. The trouble is one we all hate to talk about, and hundreds of men and women, from reasons of modesty, fail to find out what ought to be done. All sufferers ought to know that Dr. Pierce's Anodyne Pile Ointment allays the pain, soothes the parts and sets up a healing process immediately. Quite often marked improvement is made in a very short time, so that people can go about their work as they always did. Get a box of this Pile Ointment today at the drug store, and be sure to give the full name, Dr. Pierce's Anodyne Pile Ointment. Neglect only makes the piles worse. If not obtainable at your drug store, send 60c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

taken to his home a very short distance away at house No. 23. Grazza was playing with several youngsters and during the play scrambled too near the concrete wall edge. A brother of Mazza was there as was also Steve Halone and Louis Moni and others, children of foreigners living near. The lungmotor was brought from the Fairmont fire department with the chance that when the lad was found there might still be life in his body but as it grew later all hope of this was given up. Coroner Lloyd was called and under his direction search was begun at once for the body. About six o'clock it was found. Funeral arrangements have not been made as yet.

In the Springtime

It's just at this time of the year that we need something taken from Nature to restore the vital forces.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found herbs and roots provided by Nature to overcome constipation,

and of these he selected Mayapple leaves of Aloe, root of Jalap, and from them made little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in our system and these are carried by the blood through your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines and you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a dose of castor oil, or something which is more pleasant, a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need—right now.
